

# IBM VERSE

CARA-CARA KONFIGURASI IBM VERSE PADA TELEFON PINTAR

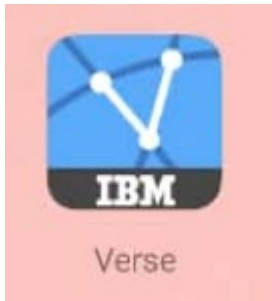

# KONFIGURASI IBM VERSE

- ▶ Hidupkan mobile data/wireless telefon pintar untuk mengakses internet.
- ▶ Bagi pengguna yang menggunakan Iphone, buka “App Store” 
- ▶ Bagi pengguna Android (Contohnya Samsung, ASUS, Lenovo, Xiaomi), buka “Play Store” 
- ▶ Cari IBM Verse, kemudian tekan butang “INSTALL”

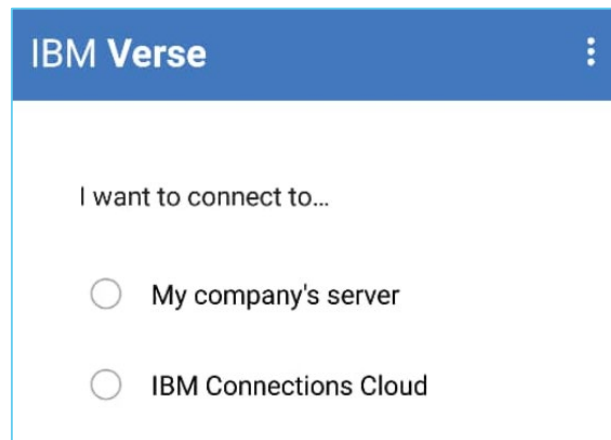

# KONFIGURASI IBM VERSE

- ▶ Selepas selesai proses instalasi, buka aplikasi IBM Verse untuk konfigurasi.

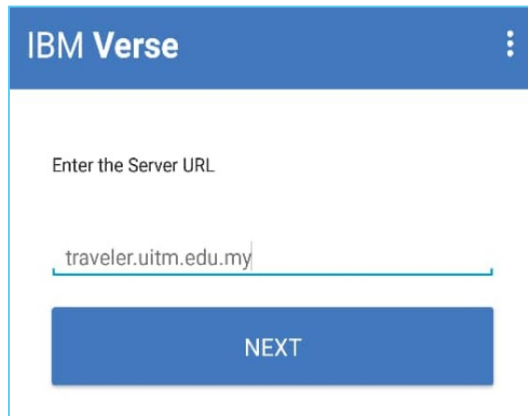

- ▶ Pilih My Company's server.

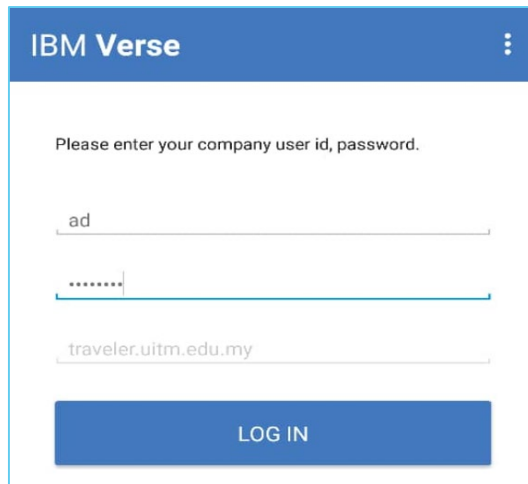

# KONFIGURASI IBM VERSE

- ▶ Masukkan Server URL, “traveler.uitm.edu.my” kemudian tekan butang “NEXT”

The screenshot shows the IBM Verse configuration interface. At the top, there is a blue header with the text "IBM Verse" and a vertical ellipsis icon. Below the header, the text "Enter the Server URL" is displayed. A text input field contains the URL "traveler.uitm.edu.my". Below the input field is a blue button with the text "NEXT".

- ▶ Masukkan username dan password webmail kemudian tekan butang “LOG IN”

The screenshot shows the IBM Verse configuration interface for login. At the top, there is a blue header with the text "IBM Verse" and a vertical ellipsis icon. Below the header, the text "Please enter your company user id, password." is displayed. There are three input fields: the first contains the username "ad", the second contains a masked password "\*\*\*\*\*", and the third contains the URL "traveler.uitm.edu.my". Below the input fields is a blue button with the text "LOG IN".
